Re: Transplant Permit

Dear Ms. Warner:

This letter is in response to your request to transplant seed clams as follows:

Start	Stop	Source	Destination	Supervisor	Approved
8/19/2015 7:00AM	8/19/2015 11:00 AM	DEI	N. Squirrel Flat	Paul Burgess	✓

**Note: Areas seeded with clams taken from Restricted or Prohibited (Closed) areas must be closed for a period of at least 6 months. This applies to any transplant listed above where 'Approved' is NOT checked.**

This letter will serve as permission for the above activity provided that the listed Supervisor contacts, 24 hours before the start of the activity, the Municipal Shellfish Warden, the Marine Patrol Officer responsible for this area and the Marine Patrol Division I Office at 633-9595. You may call the Division I Office in advance to determine who will be the local officer on duty and obtain direct contact information.

If DMR can be of further assistance, please don't hesitate to contact me or your area biologist, Pete Thayer at (207) 633-9539.

Sincerely,

Denis-Marc Nault  
Shellfish Management Program Supervisor

cc: Pete Thayer, Area Biologist  
Lt. Daniel White, Marine Patrol Division I
